Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health plan to the provider. Notifications can be managed from the bell icon  in the top right banner on the home page. Additional information regarding notification settings can be found in the Request For More Information (RFMI) chapter.

A screenshot of the NantHealth NaviNet web application. The top navigation bar is dark blue with the NantHealth logo and 'NaviNet' text. There are dropdown menus for 'WORKFLOWS' and 'HEALTH PLANS'. On the right side of the navigation bar, there is a bell icon (notifications), a question mark icon, and a user profile icon. A red box highlights the bell icon. Below the navigation bar, there are three buttons: 'Top Support FAQs', 'Support Videos', and 'Contact Support'. The main content area features a 'COVID-19 Resources & Information' section with a blue background and a globe image. To the right, there is a 'covermymed' advertisement for 'CORONAVIRUS The Science' and 'Complete PA Requests up to 3x Faster with Drug Authorizations'. A notification pop-up window is open in the foreground, titled 'No Notifications Available'. The pop-up has tabs for 'Summary', 'Notifications', and 'Settings'. The 'Notifications' tab is selected and circled in red. The pop-up content says 'No Notifications Available' and 'To choose which types of notifications you would like to receive, use your Activity Settings'. A large grey bell icon is centered in the pop-up.

Service Type – Select the appropriate service type. Based on the service type selected the user may or may not be prompted to enter the place of service. For example, if the request is for home health care the user will not be prompted to select a place of service because the place of service is in the home. If the service type is physical therapy the user will be prompted to specify a place of service (comprehensive outpatient rehabilitation facility, home, independent clinic, off campus-outpatient hospital, office). If an inpatient service type is selected the user will not be prompted to enter a place of service on this screen.

4 AMENDING AN AUTHORIZATION

Amending an Authorization Request

Amending a request is the process of extending existing services **or** requesting another service on the same authorization. Each time an amendment is made the note character limit will be reduced. Amending is only available to requests that have been approved or partially approved by the health plan. The maximum number of services that can be added to an authorization is 15.

	<p>When making an amendment the user can add diagnoses, add services, add notes (if the maximum character limit has not been exceeded) and add documents.</p>

5 SEARCH FOR AN EXISTING AUTHORIZATION

Search for an Existing Authorization

Search for an Existing Authorization (also known as Authorization Inquiry) is a way to search for authorizations that may not have been initiated in NaviNet, for example they may have phoned, faxed, or created in Jiva.

Step	Action
1.	<p>Providers will only see authorizations/requests for members that are under their care. To search for an existing authorization select Medical Authorizations under Workflows for this Plan.</p> <div data-bbox="240 394 634 491"><p>Workflows for this Plan</p><p>Medical Authorizations</p></div>  <p>The screenshot shows the NantHealth NaviNet interface. The top navigation bar includes 'WORKFLOWS', 'HEALTH PLANS', and 'ADMINISTRATION'. The main content area is titled 'Medical Authorizations: AmeriHealth Caritas'. A red box highlights the 'Authorizations' tab. Below it, a red box highlights the 'Search for Existing Authorization' section. This section contains the following fields and options:</p> <ul style="list-style-type: none"><input type="radio"/> Requesting<input checked="" type="radio"/> ServicingServicing Provider: Select Group/Facility ... 7 REQUEST FOR MORE INFORMATION (RFMI)

Request for More Information (RFMI)

Request for More Information (RFMI) is a feature that allows the health plan to request specific additional information to the provider if needed. Providers will only be able to have the RFMI ability for authorization requests that are pending or approved that are created in the NaviNet Provider Portal. Providers will be able to add notes and/or upload the documents in NaviNet Provider Portal for the pending authorization requests via the 'more information required' screen.

Notifications are an important part of the communication process between the health plan and the provider. Users can opt to receive notifications whenever a request is sent from the health plan to the provider. Notifications can be managed from the bell icon in the top right banner on the home page. It is important to note that notifications related to RFMI is not an immediate process. There is a slight delay as information travels from system to system.

In NaviNet, users can opt to receive notifications whenever a request for additional information is requested from the health plan. Notifications can be managed under settings which is found when the bell icon is selected.

Step	Action
1.	<p>Select the bell icon in the top right corner in NaviNet, then from the Settings tab, specify the notifications you would like to receive.</p>
